Size	5*3*3.6cm	Feature	Smart Sensor/Lightweight USB Rechargeable
Run time	3-15h		
Charge time	3h		

- | | |
|---------------|--|
| Step 1 | Remove the rubber cover. Using the included charging cord, insert the micro-USB plug into the charging port on the bottom of the headlamp as pictured above. |
| Step 2 | Insert the standard USB end into a power source such as a computer or block charger. |
| Step 3 | If using an electrical outlet. The button sides will turn RED while charging. Fully charged from RED to GREEN. |

- It is recommended that you fully charge the battery before using the headlamp.
- To prolong the life of the battery it is best to recharge the battery BEFORE it is fully discharged.
- Avoid extreme temperatures especially heat.
- DO NOT attempt to open the battery compartment as this could damage the unit and will void the warranty.

WARNING!

Looking directly at an LED light can harm your eyes. We do not recommend this product for children under six years old.
